Consumption Bar

Our consumption bar is very simple. You and your guests order what you'd like from the bar and we keep track of everything on a single tab that is settled at the end of the event. The consumption bar is also available for certain time periods and particular budgets that are determined by you and at your discretion.

The above consumption bar package does not include a 10% service fee

Budgeted Consumption Bar

This option is similar to our full consumption bar shown above but with some very specific predefined limits. These limits can be placed on what's available for guests to order or even a specific set budget amount.

The above consumption bar package does not include a 10% service fee

Cash Bar

This is exactly as it sounds. You and your guests are responsible for purchasing their own drinks during the event.

There is no service fee related to this bar option
